1 Foreword

YD/T 2655-2013 was issued by Ministry of Industry and Information Technology on 17 October 2013.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 13 pages in English translation.

2 Scope Preview

This standard specifies electromagnetic compatibility is connected to a telecommunication network video surveillance equipment (EMC) limits, performance criteria and measuring methods.It cites 20 other standards.

YD/T 2655-2013 falls under ICS 33.100, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 Normative references

4 Where this standard sits

YD/T 2655-2013 is classified under ICS 33.100, in the field of telecommunications.

It cites 20 standards, listed in full above.

5 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 13 pages (approximate)

6 Related standards

Standards on related subjects:

YD/T 2583.18-2019 - Requirement and measurement methods of electromagnetic compatibility for cellular mobile telecommunication equipment - Part 18: 5G user equipment and ancillary equipment

YD/T 1484.6-2013 - Measurement method for radiated RF power and receiver performance of wireless device. Part 6: LTE wireless device

GB/T 3873-1983 - General specifications for products packaging of communication equipments

YD/T 1312.16-2015 - The wireless communication device electromagnetic compatibility requirements and measuring methods - Part 16: Mobile Satellite Communication System terminal earth stations

YD/T 2654-2013 - Requirements and test methods of electromagnetic compatibility for wireless power supply equipment

7 Classification and status

International classification (ICS): 33.100

Chinese Standard Classification (CCS): M 06

Prefix YD/T: recommended standard.
