1 Foreword

YD/T 2668-2013 was issued by Ministry of Industry and Information Technology on 17 October 2013.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 19 pages in English translation.

2 Scope Preview

This standard specifies the telecommunications network protection needs faced by abnormal traffic detection technology, control measures, monitoring product deployment, and monitoring system performance and interface requirements.

YD/T 2668-2013 falls under ICS 33.040, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

4 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 19 pages (approximate)

5 Related standards

Standards on related subjects:

YZ/T 0173-2020 - Specifications for regulatory data access of intelligent mail and parcel locker and intelligent self-express service machine

YD/T 1730-2008 - Implementation Guide for Security Risk Assessment of Telecom Network and Internet

YD/T 1548.1-2007 - 2GHz WCDMA digital cellular mobile communication network terminal equipment testing method (second stage) - Part 1: Basic functions, operations and performance testing

YD/T 2672-2013 - Information security management framework for telecommunications organizations

YD/T 2670-2013 - Customer information security management framework of telecom operators

YD/T 2666-2013 - Technical requirement of firewall equipment for dual stack of IPv4-IPv6

6 Classification and status

International classification (ICS): 33.040

Chinese Standard Classification (CCS): M 16

Prefix YD/T: recommended standard.
