What this standard covers

This standard specifies the network structure reference model of the elapsed high-speed packet data (eHRPD) radio access network (eAN) of the 800MHz/2GHz cdma2000 digital cellular mobile communication network, the basic functional requirements of the eAN system, authentication requirements, synchronization requirements, interface requirements, and device performance. Requirements, environmental requirements, power and grounding, operation and maintenance (O&M) requirements, etc.

Document data

Chinese classification (CCS): M37.

Estimated length of the Chinese original: 12,125 words.
