What this standard covers

This standard specifies the test environment, test contents, and test methods of system equipment related to LTE-based voice solutions (VoLTE), including EPC equipment, eNodeB equipment, IMS network equipment, and billing equipment. This standard is applicable to devices supporting VoLTE and SRVCC in Evolved Packet System, including circuit domain core network (eMSC), MME, S-GW, P-GW, HSS, eNodeB and IMS equipment.

Document data

International classification (ICS): 33.060.

Chinese classification (CCS): M36.

Estimated length of the Chinese original: 179,110 words.
