What this standard covers

This standard specifies the terms and definitions, technical requirements, test methods, quality assessment procedures, inspection rules, markings, packaging, transportation, and storage requirements for intelligent optical distribution network fiber optic connectors (hereinafter referred to as smart fiber connectors). This standard is applicable to optical fiber active connectors for intelligent optical distribution networks, and other intelligent optical fiber connection devices can also be used as reference.

Document data

International classification (ICS): 33.180.01.

Chinese classification (CCS): M33.

Estimated length of the Chinese original: 40,470 words.
