What this standard covers

This standard specifies the product classification, requirements, test methods, inspection rules, signs, instructions for use, packaging, transportation and storage requirements for the full-dry outdoor optical cable for loose-band twisted communication. This standard is applicable to all-dry optical cables for communication, such as pipelines, direct burials, tunnels (channels), non-self-supporting overheads, etc. This standard does not apply to fully-filled fiber optic cables, semi-dry fiber optic cables and micro-cables for air blowing.

Document data

Chinese classification (CCS): M33.
