1 Foreword

YD/T 3631-2020 is issued by Ministry of Industry and Information Technology.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the new functional requirements, performance requirements and interface requirements for TD-LTE base stations by introducing carrier aggregation, multi-antenna technology enhancement, ePDCCH, dual connectivity, small cell enhancement and other LTE-A enhancement technologies. This standard applies to macro coverage, medium coverage and local coverage base station equipment of TD-LTE digital cellular mobile communication network.

YD/T 3631-2020 carries no ICS number and no Chinese Standard Classification code.
