1 Foreword

YD/T 3650-2020 is issued by Ministry of Industry and Information Technology.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 11 pages in English translation.

2 Scope Preview

This standard specifies the specific technical requirements for the management of malicious voice information based on the IMS core network, mainly including: risk model analysis, governance architecture, identification, early warning and disposal technologies for malicious voice information and users, as well as the corresponding processes, related systems and network elements. technical requirements, etc. This standard applies to the management of malicious voice messages in IMS networks.

YD/T 3650-2020 falls under ICS 33.040, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
