1 Foreword

YD/T 3660-2020 is issued by Ministry of Industry and Information Technology.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 32 pages in English translation.

2 Scope Preview

This standard specifies the system structure of the unified command platform for fraud phone prevention, the interfaces that can be used by each subject, and specifies the functions of the relevant interfaces, the protocols used, the interface process and the format of data interaction. This standard applies to the unified command platform for fraud phone prevention.

YD/T 3660-2020 falls under ICS 33.040, in the field of telecommunications.
