1 Foreword

YD/T 3661-2020 is issued by Ministry of Industry and Information Technology.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the definition and characteristics of bad voice information in telecommunication networks, and regulates the judgment criteria for bad voice information in terms of content characteristics, technical characteristics, behavior characteristics, and user feedback. This standard is applicable to the determination and statistical analysis of bad voice information by telecom operators (including basic telecom companies, mobile resale business operators and value-added telecom companies).

YD/T 3661-2020 falls under ICS 33.030, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
