1 Foreword

YD/T 3667-2020 is issued by Ministry of Industry and Information Technology.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the identification and description specifications of mobile communication intelligent terminal vulnerabilities. This standard is applicable to the mobile communication intelligent terminal security management department for the release of mobile communication intelligent terminal vulnerability information and the construction of vulnerability database.

YD/T 3667-2020 falls under ICS 33.060, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
