1 Foreword

YD/T 3669-2020 is issued by Ministry of Industry and Information Technology.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 9 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements for mobile communication terminal payment software in terms of software functional security, software self-protection capability, software data, communication security and business security. This standard is applicable to mobile communication terminal payment software developers, and can also be used as a reference for mobile application users, security testing and auditing and certification agencies to evaluate the security capabilities of mobile communication terminal payment software.

YD/T 3669-2020 falls under ICS 33.030, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
