1 Foreword

YD/T 3671-2020 is issued by Ministry of Industry and Information Technology.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the management requirements for public cloud service providers to carry out security operation and maintenance, mainly involving organizations and personnel, policies and procedures, service level agreements, resource control and isolation, emergency response and risk assessment, supply chain security, business continuity assurance, Issue tracking and evidence gathering. This standard is applicable to the public cloud service platforms of public cloud service providers, and also provides a reference for key industries and enterprises and institutions to use public cloud services.

YD/T 3671-2020 falls under ICS 35.110, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
