1 Foreword

YD/T 3726.6-2020 is issued by Ministry of Industry and Information Technology.

It is one of 7 parts of the YD/T 3726 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the interface specification based on XML technology between the packet transport network (PTN) network management system EMS-NMS facing group customers. This standard applies to the multi-vendor interoperability of the PTN network management system.

YD/T 3726.6-2020 is filed under Chinese Standard Classification M11, in the field of telecommunications and broadcasting.

This catalogue holds 2,288 other YD/T standards without an ICS number.
