1 Foreword

YD/T 3758.1-2023 was issued by Ministry of Industry and Information Technology on 28 July 2023 and has been in force since 1 November 2023.

It is one of 11 parts of the YD/T 3758 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the technical requirements for telecommunications data service platforms, including the scope, type, collection, processing, application scenarios and services of data, and stipulates relevant management requirements, including data management, data ownership, main processes, certification and authorization, Sample control, monitoring statistics, emergency response, etc. This standard applies to the research and development, construction and operation of data service platforms by telecom operators and related telecom data service providers.

YD/T 3758.1-2023 falls under ICS 33.030, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
