1 Foreword

YD/T 3758.11-2023 was issued by Ministry of Industry and Information Technology on 28 July 2023 and has been in force since 1 November 2023.

It is one of 11 parts of the YD/T 3758 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the data application requirements for telecommunications data service platforms in the field of regional planning insights, including overall requirements, technical requirements, functional requirements, data security and sensitive data protection requirements. This standard applies to the research and development, construction and operation of service platforms by telecom operators and related telecom data service providers in the field of regional planning insight applications.

YD/T 3758.11-2023 falls under ICS 33.030, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
