1 Foreword

YD/T 3758.4-2025 was issued by Ministry of Industry and Information Technology on 2 July 2025 and has been in force since 1 November 2025.

It is one of 11 parts of the YD/T 3758 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the overall functional testing methods for telecommunications data service platforms. This standard covers the testing content, testing procedures, and judgment criteria for data service platforms, including their data scope support capabilities, data type support capabilities, data acquisition capabilities, data processing capabilities, application scenario support capabilities, and service form support capabilities. This standard applies to the testing and selection of data service platforms for telecommunications operators and related telecommunications data service providers.
