1 Foreword

YD/T 3831.3-2025 was issued by Ministry of Industry and Information Technology on 2 July 2025 and has been in force since 1 November 2025.

It is one of 3 parts of the YD/T 3831 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the abbreviations, terms, and definitions for 800Gb/s integrated coherent optical transceiver components, specifies the technical requirements for the optoelectronic performance, packaging form, appearance, and restricted substances of the optical components, describes the corresponding test methods, and specifies inspection rules, marking, packaging, transportation, and storage. This standard applies to the design, development, production, and inspection of 800Gb/s integrated coherent optical transceiver components.

YD/T 3831.3-2025 falls under ICS 33.180.01, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Other parts of this standard:

YD/T 3831.1-2021 - Integrated coherent receiving and luminous components - Part 1: 100Gb/s

YD/T 3831.2-2022 - Integrated Coherent Transceiver Optical Components - Part 2: 400Gb/s

Standards on related subjects:

YD/T 2554.1-2013 - Plastic optical fiber connector - Part 1: Type LC

GB/T 9771.1-2008 - Single-mode optical fibres for telecommunication -- Part 1: Characteristics of a dispersion unshifted single-mode optical fibre

GB/T 18480-2001 - Specification for submarine optical fiber cables

YD/T 3834.2-2023 - Quantum Key Distribution (QKD) System Technical Requirements - Part 2: QKD System Based on Gaussian Modulated Coherent State Protocol

5 Classification and status

International classification (ICS): 33.180.01

Chinese Standard Classification (CCS): M 33

Prefix YD/T: recommended standard.
