1 Foreword

YD/T 3887.2-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

It is one of 2 parts of the YD/T 3887 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the dedicated line business management and guarantee application scenarios for government and enterprise customers and the business requirements under each application scenario, including the operator's internal network operation and maintenance management scenario, the operator's internal market operation scenario, and the operator's external customer application scenario. This standard applies to the design and construction of government and enterprise customer business management and guarantee systems.
