1 Foreword

YD/T 3897-2021 is issued by Ministry of Industry and Information Technology.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the life cycle management functions in the network functions virtualization (NFV) environment, including the life cycle management functional requirements, interface analysis and interface definitions involved in each management interface in network functions virtualization. This standard applies to the life cycle management of network functions virtualization (NFV).
