1 Foreword

YD/T 3928.6-2021 is issued by Ministry of Industry and Information Technology.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the interface testing requirements for the content distribution network (CDN) service part of the Internet basic resource support system, including test methods, test content, test cases, etc. This standard is applicable to the testing of information exchange interfaces and regulatory information exchange interfaces between Internet basic resource support enterprise-side systems, Internet basic resource support systems and various content distribution network (CDN) service operating enterprises.

YD/T 3928.6-2021 falls under ICS 33.040, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
