**INDUSTRY STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

YD/T 4020.3-2024

**Single-fiber bidirectional wavelength division multiplexer for
metropolitan access - Part 3: LWDM**
(English Translation)

Issued on: July 5, 2024

Implemented on: October 1, 2024

Issued by: Ministry of Industry and Information Technology

What this standard covers

This standard specifies the terms and definitions of single-fiber bidirectional fine wavelength division multiplexers for metropolitan area access, specifies the technical requirements of BiDi-LWDM such as fiber type, interface, wavelength allocation, optical characteristics, transmission performance, environmental compliance, etc., specifies the corresponding test methods, and specifies the inspection rules, identification, packaging, transportation and storage, etc. This standard applies to the design, development, production, testing and inspection of single-fiber bidirectional fine wavelength division multiplexers for metropolitan area access.

Document data

International classification (ICS): 33.180.01.

Chinese classification (CCS): M33.

Estimated length of the Chinese original: 26,278 words.
