1 Foreword

YD/T 4127-2023 was issued by Ministry of Industry and Information Technology on 21 April 2023 and has been in force since 1 August 2023.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard stipulates the service conditions and service elements of Internet data center service capabilities, defines various key service indicators of service capabilities, and proposes classification requirements for service capability evaluation. This standard is applicable to evaluate the external service capability level of service providers, and comprehensively considers the professional service capabilities of service providers in undertaking Internet data center (including cloud data center) business.
