1 Foreword

YD/T 4138-2022 was issued by Ministry of Industry and Information Technology on 30 September 2022.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the content, procedures, determination rules and report format of fire (security) safety assessment of communication building units. This standard is applicable to the safety assessment of fire (security) protection of communication buildings. This standard applies to independent assessments organized by communication construction units and fire (security) safety assessments conducted by third-party service agencies. The evaluation report serves as confirmation of the implementation of the system and the basis for rectification of hidden dangers.

YD/T 4138-2022 falls under ICS 33.020, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
