1 Foreword

YD/T 4177.17-2025 was issued by Ministry of Industry and Information Technology on 17 December 2025 and has been in force since 1 April 2026.

It is one of 17 parts of the YD/T 4177 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the minimum necessary assessment criteria for mobile internet applications (APPs) in their activities related to the collection, storage, use, provision, and deletion of user personal information (transaction information), and illustrates how to implement the minimum necessity principle through typical application scenarios. This standard applies to the processing of user personal information (transaction information) by mobile applications (APPs), and also to the supervision, management, and evaluation of the collection and use of transaction information by third-party assessment agencies and other organizations.

YD/T 4177.17-2025 falls under ICS 35.030, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
