1 Foreword

YD/T 4195-2023 was issued by Ministry of Industry and Information Technology on 21 April 2023 and has been in force since 1 August 2023.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the data interaction interface between the Internet data center infrastructure (including: strong power, HVAC, weak current. Excluding: IT infrastructure) monitoring system and the Internet data center upper-level integration platform (or enterprise management platform), and Northbound interface. This standard applies to the data docking between the upper-layer integration platform (or enterprise management platform) of the Internet data center and the Internet data center infrastructure monitoring system.

YD/T 4195-2023 falls under ICS 33.040.40, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
