1 Foreword

YD/T 4199.2-2023 was issued by Ministry of Industry and Information Technology on 28 July 2023 and has been in force since 1 November 2023.

It is one of 5 parts of the YD/T 4199 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard stipulates the specific implementation and application methods of the user experience quality evaluation system for cloud services, including requirements for obtaining various indicators and measurement tools, methods for measuring good experience and poor service quality rates for cloud services, and the delivery and acceptance process. Requirements for quality satisfaction. Mainly based on the perspective of cloud-network collaboration, it focuses on the user experience affected by the comprehensive impact of cloud, network, and terminal factors. User experience related to only one of these factors is not covered by this standard. This standard is applicable to the user experience evaluation based on the joint influence of cloud and network on cloud services provided by cloud service providers and network operators to enterprises and institutions.

YD/T 4199.2-2023 falls under ICS 35.240, in the field of information technology.
