1 Foreword

YD/T 4213-2023 was issued by Ministry of Industry and Information Technology on 21 April 2023 and has been in force since 1 August 2023.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the specific technical requirements for monitoring and intercepting international fraudulent calls on the network side, mainly including: overall technical architecture for monitoring fraudulent calls, network signaling collection requirements, behavior analysis of suspected fraudulent calls, verification of fraudulent calls, interception of fraudulent calls, fraud Telephone statistical analysis, etc. This standard is applicable to scenarios where basic telecommunications companies use international/internet gateway equipment to carry out technical interception of international fraudulent calls.

YD/T 4213-2023 falls under ICS 33.040.35, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
