1 Foreword

YD/T 4235-2023 was issued by Ministry of Industry and Information Technology on 21 April 2023 and has been in force since 1 August 2023.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the requirements for the use, operation and maintenance capabilities of Internet access service business information security management systems. This standard applies to enterprises that provide information security management system construction and operation and maintenance services to telecommunications business operators within the territory of the People's Republic of China.

YD/T 4235-2023 falls under ICS 33.040, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
