1 Foreword

YD/T 4243-2023 was issued by Ministry of Industry and Information Technology on 21 April 2023 and has been in force since 1 August 2023.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the basic principles, elements, processes and technical support for the identification and sorting of telecommunications network and Internet data assets. This standard is suitable for guiding telecommunications networks and Internet providers and operators to identify and sort out enterprise data assets, as well as implement and provide technical support based on the sorting process throughout the entire life cycle of data assets.

YD/T 4243-2023 falls under ICS 33.040.40, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
