1 Foreword

YD/T 4244-2023 was issued by Ministry of Industry and Information Technology on 21 April 2023 and has been in force since 1 August 2023.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the relevant requirements and corresponding test methods for the technologies required in the classification and grading process of telecommunications network and Internet data. This standard applies to the design, development, testing and evaluation of relevant technical tools or products by enterprises, organizations or institutions in the process of implementing data classification and classification.

YD/T 4244-2023 falls under ICS 33.040, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

CJ/T 188-2018 - Technical requirements of utility meters data transmission

YDC 079-2009 - Technical Specifications and Testing Methods of Wireless LAN for Mobile Terminals

YD/T 4247-2023 - Telecommunication network and Internet database audit technical requirements and test methods

YD/T 4246-2023 - Technical Requirements and Test Methods for Abnormal Behavior Monitoring of Telecommunication Network and Internet Data

YD/T 4245-2023 - Telecommunications network and Internet data desensitization technical requirements and test methods

5 Classification and status

International classification (ICS): 33.040

Chinese Standard Classification (CCS): L 78

Prefix YD/T: recommended standard.
