1 Foreword

YD/T 4300.1-2023 was issued by Ministry of Industry and Information Technology on 21 April 2023 and has been in force since 1 August 2023.

It is one of 3 parts of the YD/T 4300 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the overall requirements for 50Gbit/s passive optical network (50G PON) in terms of business, physical layer, system level, management and maintenance and environment, power supply, electrical safety, etc. This standard is applicable to the development and application of 50G PON equipment for public telecommunications networks, and can also be used as a reference for other dedicated telecommunications networks.

YD/T 4300.1-2023 falls under ICS 33.040.50, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Other parts of this standard:

YD/T 4300.2-2023 - Access network technical requirements 50Gbit/s Passive Optical Network (50G-PON) - Part 2: Physical Media Dependent (PMD) layer requirements

YD/T 4300.3-2023 - Access network technical requirements 50Gbit/s Passive Optical Network (50G-PON) - Part 3: Transmission Convergence (TC) layer requirements

Standards on related subjects:

YD/T 1092-2023 - Telecommunication cables - Foamed polyolefin dielectric, corrugated copper-tube outer conductor, 50 Ohm radio-frequency coaxial cable for wireless communications

YD/T 2165-2010 - Technical specification of modular uninterruptible power systems for telecommunications

YD/T 841-1996 - Underground communication pipe with plastic pipe

YD/T 4304-2023 - Single pair twisted pair cable for digital communication

5 Classification and status

International classification (ICS): 33.040.50

Chinese Standard Classification (CCS): M 42

Prefix YD/T: recommended standard.
