Table of Contents

1 Scope
2 Normative references
3 Terms and definitions
4 Requirements
4.1 Classification
4.2 Interface graphics and mating dimensions
4.3 Other dimensions
4.4 Reference optical-electric connectors
4.5 Appearance and endface of optical-electric connectors
4.6 Optical and electric performance of optical-electric connectors
4.7 Materials
4.8 Restricted substances
5 Quality assessment procedures
5.1 Classification
5.2 Qualification approval procedures
5.3 Quality consistency inspection
6 Parameter testing
6.1 Environmental requirements
6.2 Testing conditions
6.3 Testing methods
7 Environmental and mechanical reliability tests
7.1 Test environment requirements
7.2 High temperature aging test
7.3 Low temperature storage test
7.4 Thermal cycling test
7.5 Humidity aging test
7.6 Damp heat cycling test
7.7 Salt spray test
7.8 Vibration test
7.9 Mechanical shock
7.10 Bending test
7.11 Torsion test

7.12 Tensile strength test
7.13 Tail tension test
7.14 Collision test
7.15 Mechanical durability test
7.16 Repeatability
7.17 Hot swap
7.18 Interchangeability
7.19 Insertion and removal force
8 Inspection rules
8.1 Inspection classification
8.2 End-of-manufacturing inspection
8.3 Type inspection
9 Signs, packaging, transport and storage
9.1 Signs
9.2 Packaging
9.3 Transport
9.4 Storage

1 Foreword

YD/T 4305.3-2025 was issued by Ministry of Industry and Information Technology on 2 July 2025 and has been in force since 1 November 2025.

It is one of 4 parts of the YD/T 4305 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This document specifies requirements of the classification, interface graphics and mating dimensions, endfaces, optical and electric performance, materials and environmental compliance, describes related test methods, and specifies quality assessment procedures, inspection rules, signs, packaging, transport and storage for Type single LC optical-electric hybrid connectors (hereinafter referred to as "optical-electric connectors"). This document is applicable to the design, development, production and inspection of Type single LC optical-electric hybrid connector for telecommunication in the application scenarios of park/indoor wireless, office and monitoring. This document may apply to Type single LC

optical-electric hybrid connector for telecommunication in other application scenarios.

YD/T 4305.3-2025 falls under ICS 33.180.20, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 Normative references

GB/T 2828.1 - Sampling procedures for inspection by attributes-Part 1: Sampling schemes indexed by acceptance quality limit (AQL) for lot-by-lot inspection

GB/T 26572 - Requirements of concentration limits for certain restricted substances in electrical and electronic products

GB/T 39560

YD/T 1272.1-2018 - Optical fiber connector-Part 1: Type LC

YD/T 1272.3-2015 - Optical fiber connector-Part 3: Type SC

YD/T 2152-2010 - The requirement of reliability and test methods for optical fiber connectors

YD/T 4305.1-2023 - Hybrid optoelectronic connectors for communication - Part 1: Type SC

YD/T 4305.2-2024 - Optical-electrical hybrid connectors for communications - Part 2: Duplex LC type

SJ/T 11364-2014 - Marking for the restriction of the use of hazardous substances in electrical and electronic product

4 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

5 Related standards

Other parts of this standard:

YD/T 4305.1-2023 - Hybrid optoelectronic connectors for communication - Part 1: Type SC

YD/T 4305.2-2024 - Optical-electrical hybrid connectors for communications - Part 2: Duplex LC type

YD/T 4305.4-2024 - Optical-electrical hybrid connectors for communications - Part 4: Type
