1 Foreword

YD/T 4353-2023 was issued by Ministry of Industry and Information Technology on 28 July 2023 and has been in force since 1 November 2023.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the testing methods for intelligent rapid deployment of hospital remote monitoring systems based on 5G, including remote monitoring dedicated network testing methods, remote monitoring platform capability testing methods, and remote monitoring business function testing methods. This standard is applicable to the function and performance testing and verification of intelligent and rapidly deployed hospital remote monitoring systems based on 5G.

YD/T 4353-2023 falls under ICS 33.060, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

YD/T 3710-2020 - Test methods of message layer of LTE-based vehicular communication

YD/T 4352-2023 - Technical requirements for intelligent rapid deployment of hospital remote monitoring systems based on 5G

YD/T 4351-2023 - Test method for intelligent rapid deployment of hospital telemedicine system based on 5G

YD/T 4350-2023 - Technical requirements for intelligent rapid deployment of hospital telemedicine systems based on 5G

5 Classification and status

International classification (ICS): 33.060

Chinese Standard Classification (CCS): M 30

Prefix YD/T: recommended standard.
