1 Foreword

YD/T 4361-2023 was issued by Ministry of Industry and Information Technology on 28 July 2023 and has been in force since 1 November 2023.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the test environment and test methods for system performance and system functions of indoor positioning systems. This standard applies to the testing of indoor positioning systems based on 5G, Bluetooth, UWB and WiFi positioning technologies.

YD/T 4361-2023 falls under ICS 33.060, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

YD/T 3711-2020 - Technical requirement of IMS based vehicle eCall system based on public telecommunication network

GB/T 32401-2015 - Technical requirements and measurement methods for VHF/UHF frequency

GB/T 12572-2008 - Universal requirements and measurement methods of parameters for radio transmitting equipment

YD/T 4360-2023 - Technical requirements for universal application programming interface (API) architecture for mobile communication networks

YD/T 4356-2023 - Technical requirements for mobile edge computing based on civil unmanned aerial vehicles

YD/T 4355-2023 - Technical requirements for cellular broadband connection capabilities of smart devices based on parallel multitasking operating systems

5 Classification and status

International classification (ICS): 33.060

Chinese Standard Classification (CCS): M 36

Prefix YD/T: recommended standard.
