1 Foreword

YD/T 4375.3-2023 was issued by Ministry of Industry and Information Technology on 28 July 2023 and has been in force since 1 November 2023.

It is one of 4 parts of the YD/T 4375 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the testing methods for intelligent access control management systems, including universal testing, system function and performance testing of intelligent access control management systems. This standard is applicable to the design, development and testing of intelligent access control management systems in intelligent optical distribution networks. It is also applicable to intelligent access control management systems in optical distribution networks. Other networks that have requirements for intelligent access control management systems can also refer to it.

YD/T 4375.3-2023 falls under ICS 33.180.01, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Other parts of this standard:

YD/T 4375.1-2023 - Part 1: Access control management terminal and application

YD/T 4375.2-2023 - Part 2: NB-IoT based door lock

YD/T 4375.4-2025 - Test methods for door access control of intelligent optical distribution network - Part 4: Interface

Standards on related subjects:

YD/T 2554.1-2013 - Plastic optical fiber connector - Part 1: Type LC

GB/T 9771.1-2008 - Single-mode optical fibres for telecommunication -- Part 1: Characteristics of a dispersion unshifted single-mode optical fibre

GB/T 18480-2001 - Specification for submarine optical fiber cables

5 Classification and status

International classification (ICS): 33.180.01

Chinese Standard Classification (CCS): M 33

Prefix YD/T: recommended standard.
