1 Foreword

YD/T 4383-2023 was issued by Ministry of Industry and Information Technology on 28 July 2023 and has been in force since 1 November 2023.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the functional requirements for large search systems in terms of data acquisition, knowledge construction, user intent understanding, and intelligent matching and answering. This standard is applicable to the research and development, construction and deployment of big search systems. It provides developers of intelligent search systems with a systematic and consistent functional description of big search systems, standardizes the functional architecture of big search systems, and provides a basis for data-level and functional-level interactions between systems. Provide support for operations.

YD/T 4383-2023 falls under ICS 35.240, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
