1 Foreword

YD/T 4392.4-2025 was issued by Ministry of Industry and Information Technology on 19 August 2025 and has been in force since 1 December 2025.

It is one of 4 parts of the YD/T 4392 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the requirements for the large-scale model development and application capabilities of artificial intelligence development platforms, mainly including capability requirements for core aspects such as data processing, model building, deployment and inference, and support and services. This standard is applicable to providing functional references for organizations using artificial intelligence development platforms for large-scale model development and application.

YD/T 4392.4-2025 falls under ICS 35.240, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Other parts of this standard:

YD/T 4392.1-2023 - General capability requirements for artificial intelligence development platforms - Part 1: Functional requirements

YD/T 4392.2-2025 - Part 2: Safety requirements

YD/T 4392.3-2026 - General requirements for artificial intelligence development platform - Part 3: Performance requirements

Standards on related subjects:

GB/T 36073-2018 - Data management capability maturity assessment mode

5 Classification and status

International classification (ICS): 35.240

Chinese Standard Classification (CCS): L 67

Prefix YD/T: recommended standard.
