1 Foreword

YD/T 4396.1-2023 was issued by Ministry of Industry and Information Technology on 28 July 2023 and has been in force since 1 November 2023.

It is one of 3 parts of the YD/T 4396 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the basic information, system maturity, service quality index requirements and evaluation methods for material review and technical testing of content detection service systems based on text recognition. This standard is applicable to guide third-party evaluation agencies in the evaluation and acceptance of system manufacturers that provide content detection service systems based on text recognition.

YD/T 4396.1-2023 falls under ICS 33.160.60, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Other parts of this standard:

YD/T 4396.2-2023 - Part 2: Content detection service system index requirements and evaluation methods based on image recognition

YD/T 4396.3-2023 - Part 3: Content detection service system index requirements and evaluation methods based on video recognition

Standards on related subjects:

YD/T 3710-2020 - Test methods of message layer of LTE-based vehicular communication

YD/T 4388-2023 - Blockchain system performance testing method

5 Classification and status

International classification (ICS): 33.160.60

Chinese Standard Classification (CCS): M 30

Prefix YD/T: recommended standard.
