1 Foreword

YD/T 4472-2023 was issued by Ministry of Industry and Information Technology on 20 December 2023 and has been in force since 1 April 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements for relevant template parameters in core network network function virtualization. The content includes the structure, relationship and role of core network virtualization information elements, as well as the metadata of information elements and the technology for formulating metadata using TOSCA and YANG. Require. This standard applies to the setting and testing of core network function virtualization template parameters.

YD/T 4472-2023 falls under ICS 01.040.33, in the field of generalities, terminology and documentation.

This catalogue holds 85 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
