1 Foreword

YD/T 4475-2023 was issued by Ministry of Industry and Information Technology on 20 December 2023 and has been in force since 1 April 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the system architecture, collection functions, collection items and performance requirements for OLT equipment to support collection functions based on telemetry interfaces. This standard is applicable to the design, development, production and testing of PON systems that support telemetry interface acquisition functions in public telecommunications network environments. Private telecommunications networks can also be used as a reference.

YD/T 4475-2023 falls under ICS 33.040.50, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
