1 Foreword

YD/T 4488-2023 was issued by Ministry of Industry and Information Technology on 20 December 2023 and has been in force since 1 April 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the security technical requirements for 5G network operation and maintenance management, including general security operation and maintenance requirements such as equipment security and account password security, as well as security such as NFV infrastructure, 5G network element security, network slicing, edge computing and security emergency response management. Operation and maintenance requirements. This standard applies to the secure operation and maintenance of 5G mobile communication networks.

YD/T 4488-2023 falls under ICS 33.060.99, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
