1 Foreword

YD/T 4532-2023 was issued by Ministry of Industry and Information Technology on 20 December 2023 and has been in force since 1 April 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements for global business load services based on extended DNS (EDNS), including technical requirements based on EDNS functions, technical requirements for content distribution network (CDN) global service load balancing (GSLB) functions, and extended DNS and CDN GSLB Interoperability technical requirements, etc. This standard is suitable for guiding the design of EDNS servers and the design and construction of CDN global load balancing servers.
