1 Foreword

YD/T 4550-2023 was issued by Ministry of Industry and Information Technology on 20 December 2023 and has been in force since 1 April 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements for 5G multi-mode single-card terminals in terms of basic communication functions, network selection methods, interoperability between 5G/4G systems, and voice solutions. This standard is applicable to the research and development of 5G terminals and the formulation of test methods for stand-alone networking (Stand Alone) and non-stand-alone networking (Non-Stand Alone) in frequency bands below 6 GHz that support the enhanced mobile broadband scenario (eMBB).

YD/T 4550-2023 falls under ICS 33.060.99, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

YD/T 2576.1-2013 - Test method for user equipment of TD-LTE digital cellular mobile telecommunication network (Phase 1) - Part 1: Basic operation, services and reliability test

YD/T 2576.2-2013 - Test method for user equipment of TD-LTE digital cellular mobile telecommunication network (phase 1) - Part 2: Radio transmission and reception performance test

YD/T 2307-2011 - Technical requirement and testing methods for general function of mobile telecommunication terminal

YD/T 7130-2026 - Airborne communication - Technical requirements for cabin Wi-Fi subsystem

YD/T 4557-2023 - Basic telecommunications enterprise data security management system technical requirements

YD/T 4556-2023 - LTE digital cellular mobile communication network terminal equipment test method (Phase 4)

5 Classification and status

International classification (ICS): 33.060.99

Chinese Standard Classification (CCS): M 37

Prefix YD/T: recommended standard.
