1 Foreword

YD/T 4565-2023 was issued by Ministry of Industry and Information Technology on 20 December 2023 and has been in force since 1 April 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the overall framework, functional requirements, security requirements and performance requirements of the Internet of Things security situation awareness system. This standard applies to the design, development and testing of IoT security situation awareness systems for basic telecommunications operating enterprises.
