1 Foreword

YD/T 4601-2023 was issued by Ministry of Industry and Information Technology on 20 December 2023 and has been in force since 1 April 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the system architecture and functional requirements of the 5G core network edge computing platform, including MEP, MEPM, VIM, edge computing operation management platform and MEO. It also specifies platform infrastructure requirements, etc. This standard applies to the development and testing methods of relevant functions and network elements of the 5G core network edge computing platform system.

YD/T 4601-2023 carries no ICS number and no Chinese Standard Classification code.
