1 Foreword

YD/T 4608.2-2024 was issued by Ministry of Industry and Information Technology on 5 July 2024 and has been in force since 1 October 2024.

It is one of 3 parts of the YD/T 4608 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the requirements for collection events in the interface file of the mobile network terminal test data interface format, including event categories and names, event collection recording methods, field formats, etc. The events involved include public information events, NR mobility events, NR physical measurement events, MAC/RLC layer measurement events, etc. This standard applies to data output related to mobile network air interface testing and its application.

YD/T 4608.2-2024 falls under ICS 33.060, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Other parts of this standard:

YD/T 4608.1-2023 - 5G network test data collection unified file interface technical requirements - Part 1: Basic file structure requirements

YD/T 4608.3-2024 - Part 3: Requirements for chip raw frame collection

Standards on related subjects:

YD/T 3710-2020 - Test methods of message layer of LTE-based vehicular communication

YD/T 4615-2023 - Technical requirements for broadband customer network networking based on public telecommunications networks Fiber to the room Overall

5 Classification and status

International classification (ICS): 33.060

Chinese Standard Classification (CCS): M 30

Prefix YD/T: recommended standard.
