1 Foreword

YD/T 4626-2023 was issued by Ministry of Industry and Information Technology on 20 December 2023 and has been in force since 1 April 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements and hierarchical evaluation methods for data center operation management systems in four aspects: monitoring management, operation and maintenance management, operations management, and security management. This standard is applicable to the grade assessment of the intelligent management capabilities of various types of operation management systems in data centers.

YD/T 4626-2023 falls under ICS 33.040.40, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
