1 Foreword

YD/T 4660-2024 was issued by Ministry of Industry and Information Technology on 29 March 2024 and has been in force since 1 July 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements for the backup of the root zone data of the Internet domain name system, including the data storage format and data acquisition method during the backup of the root zone of the Internet domain name system. This standard applies to the operation, maintenance, and management of the domain name system.

YD/T 4660-2024 falls under ICS 35.100.70, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
