1 Foreword

YD/T 4682-2024 was issued by Ministry of Industry and Information Technology on 29 March 2024 and has been in force since 1 July 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the test principles, test preparation and test cases for the identification and combing of telecommunication network and Internet data assets. This standard is applicable to guiding telecommunication network and Internet providers, operators, evaluation agencies and regulatory agencies to test and verify enterprise data asset identification and combing technologies.

YD/T 4682-2024 falls under ICS 33.040.40, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
